Summary

Detail-oriented Quality Assurance (QA) Engineer with hands-on experience in manual testing, functional testing, regression testing, and API testing for scalable web applications. Strong expertise in test case design, defect lifecycle management, and bug tracking using Jira. Solid understanding of SDLC, STLC, and Agile (Scrum) methodologies. Proven ability to identify, reproduce, and document defects while collaborating with cross-functional teams to ensure high-quality software delivery and improved product performance.

Education

Poornima University, Jaipur, Rajasthan Expected Graduation: 2027
Bachelor of Technology in Computer Science and Engineering | CGPA: 8.13/10.0
Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Database Management Systems, Software Engineering.

Government Senior Secondary Maharawal School, Dungarpur, Rajasthan April 2022 – May 2023
High School (Physics, Chemistry, Mathematics) | PCM Aggregate: 73.49%

Technical Skills

QA & Testing: Manual Testing, Functional Testing, Regression Testing, API Testing, Test Case Design, Test Plan Execution, Bug Reporting, Defect Tracking, Root Cause Analysis
Automation: Selenium (Basic), Test Automation Fundamentals, API Testing (Postman), n8n, Zapier,
Tools & Platforms: Jira, Postman, Asana, Selenium, Chrome DevTools, Git, GitHub, Microsoft Office (Excel, Word)
Programming & Web: Java, JavaScript, REST APIs, Spring Boot, HTML, CSS, BootStrap
Databases: MySQL, MongoDB
Methodologies: SDLC, STLC, Agile/Scrum, Cross-functional Collaboration

Experience

Quality Assurance Testing Intern – Zeepty (Delhi, India) Mar 2026 – Present

- Designed and executed 50+ test cases for functional, UI, and regression scenarios ensuring full coverage of critical workflows
- Performed manual and API testing using Postman, identified and logged 30+ defects in Jira, and collaborated with developers for resolution
- Conducted regression testing across 5 release cycles and used Chrome DevTools for debugging, improving product quality by 20%

Java Full-Stack Developer Intern – Zidio Development (Remote / Bengaluru, India) May 2025 – Aug 2025

- Developed and maintained REST APIs using Java and Spring Boot, supporting scalable application workflows
- Conducted manual and API testing, created test cases, and identified defects to improve system reliability
- Worked in Agile environment, contributing to both development and testing cycles for efficient delivery

PROJECTS

CraveBite – Distributed Food Delivery Platform (Link: github.com/ShreyanshJain105/cravebite-frontend)

- Developed scalable backend services using **Java, Spring Boot, and REST APIs** for real-time order processing
- Performed **functional, regression, and API testing**, ensuring reliability of order and payment workflows
- Designed **test cases for core modules** (login, cart, checkout) and identified defects to improve system quality
- Tech Stack:** Java, Spring Boot, React.js, MongoDB, AWS S3, REST APIs, Caching

JobTrek – Job Search & Tracking Platform (Link: <https://jobtrek-ui.onrender.com/>)

- Built full-stack application using **Spring Boot and React.js** with secure authentication mechanisms
- Conducted **end-to-end and API testing** to validate system behavior, data accuracy, and edge cases
- Utilized **Postman for API validation** and ensured smooth functionality across modules
- Tech Stack:** Java, Spring Boot, React.js, MySQL, MongoDB, Docker, GitHub, JWT Authentication

CERTIFICATIONS

- Google Gen AI Academy – Generative AI Certification
- Claude with Anthropic API – AI Integration Certification
- AWS Educate – Getting Started with Storage (Training Badge)

ACHIEVEMENTS

- Participated in Google Cloud Gen AI Exchange Hackathon 2025, contributing to a prototype focused on Generative AI for Youth Mental Wellness; part of a national innovation platform with 270,000+ developers and 4,457 submissions.
- Secured 3rd position in a hackathon at Central University of Rajasthan by developing an AI-driven digital framework for student mental health support.
